

Curriculum Vitae of DR. Yong lian

Personal particulars

Name: Yong (Peter) LIAN

Email: eleliany@gmail.com

Education

- Ph.D. in Electrical Engineering, 1994, Department of Electrical Engineering, National University of Singapore. Ph.D dissertation entitled “The Design of Computationally Efficient Finite Impulse Response Digital Filters” under the guidance of Professor Yong-Ching Lim.
- B.Sc. in Business, 1984, College of Economics & Management, Shanghai Jiao Tong University.

Employment

Period	Position	Company/Institution
2013 - present	Professor	Dept. of Electrical Engineering and Computer Science, Lassonde School of Engineering, York University
2017 - 2018	Chair, Tenure and Promotion Committee	Dept. of Electrical Engineering and Computer Science, Lassonde School of Engineering, York University
2013 - 2017	Member of Executive Committee	Dept. of Electrical Engineering and Computer Science, Lassonde School of Engineering, York University
2011 - 2012	Provost's Chair Professor	Dept. of Electrical & Computer Engineering, National University of Singapore
2011 - 2012	Member of University Tenure and Promotion Committee	National University of Singapore
2011 - 2012	Member of Senate Delegacy	National University of Singapore
2010 - 2012	Area Director (Integrated Circuits and Embedded Systems)	Dept. of Electrical & Computer Engineering, National University of Singapore
2008 –2009	Associate Chair of Department (Research)	Dept. of Electrical & Computer Engineering, National University of Singapore
2010 - 2012	Professor	Dept. of Electrical & Computer Engineering, National University of Singapore
2002 - 2010	Associate Professor (Tenured)	Dept. of Electrical & Computer Engineering, National University of Singapore
1999 - 2001	Assistant Professor	Dept. of Electrical & Computer Engineering, National University of Singapore
1996 - 1999	Senior CAD/CAM Specialist	CAD/CAM Centre National University of Singapore
1995 - 1996	Business Development Manager (Great China)	Xyplex Network Inc., Singapore
1993 - 1995	R&D Engineer	SyQuest Technology International, Singapore
1987 - 1990	Vice President	Brighton Information Technology Ltd, Shanghai, China
1984 - 1987	Sales Manager	NanYang Computer Co., Shanghai, China

Honors and Awards

Honors

1. Fellow, The Canadian Academy of Engineering (2020).
2. Fellow, The Academy of Engineering Singapore (2012).

3. Provost's Chair Professor (2011), in recognition of the outstanding and impactful scholarly accomplishment.
4. IEEE Fellow (2009), for the contributions to the design of low-power high-performance digital filters.
5. Distinguished Lecturer, IEEE Circuits and Systems Society (2004 –2005).

Research Awards

1. **2024 IEEE Circuits and Systems Society Meritorious Service Award**, which honors the individual with exceptional long-term service and dedication to the interest of CAS Society, received for long-term outstanding services to the IEEE Circuits and Systems Society as the Vice President for Region 10, Vice President for Publications, and as the President.
2. **2024 York University Research Award.**
3. **2023 IEEE Circuits and Systems Society Mac Van Valkenburg Award**, which honors the individual with outstanding technical and scientific contributions whose distinguishable leadership has made a significant impact globally, and who has led preeminent and extraordinary advancements in one or more fields within the scope of the IEEE Circuits and Systems Society, received for contributions and leadership in Biomedical Circuits and Systems.
4. **2023 IEEE Transactions on Biomedical Circuits and Systems Best Paper Award**, which recognizes the best paper published in the "Transactions on Biomedical Circuits and Systems" during the three calendar years preceding the award, for the paper "A 13.34 μ W Event-Driven Patient-Specific ANN Cardiac Arrhythmia Classifier for Wearable ECG Sensors" *IEEE Transactions on Biomedical Circuits and Systems*, Volume 14, Issue 2, April 2020, with Yang Zhao and Zhong Xia Shang.
5. **2020 York University Research Award.**
6. **Winner of Live Demonstration** in the 12th IEEE International Conference on Biomedical Circuits and Systems (BioCAS2016) for the demo "Evaluation of Consumer's Preference using Augmented Reality and EEG", Shanghai, China, October 17-19, 2016.
7. **Winner of the Design Contest Award** in the 15th International Symposium on Low Power Electronics and Design (ISLPED2015) for the paper "A 2.89 μ W Clockless Fully-Integrated Wireless ECG SoC for Wearable Sensors", Rome, Italy, July 22-24, 2015.
8. **2014 Chen-Ning Yang Award in Science and Technology for New Immigrant** (Singapore).
9. **2013 Outstanding Contribution Award by the Tan Kah Kee International Society and Hua Yuan Association** (an organization for Chinese immigrants in Singapore).
10. **Best Design Award of Student Design Contest** in 2013 IEEE Asian Solid-State Circuits Conference for the paper "An ECG-SoC with 535-nW/Channel Lossless Data Compression for Wearable Sensors" by PhD students, CJ Deepu, X Zhang, WS, DLT Wong.
11. **2012 Faculty Research Award**, National University of Singapore.
12. **2011 IES (Institution of Engineers Singapore) Prestigious Engineering Achievement Award**, which recognizes the outstanding achievements of the engineers, in recognition of the development of CardioLeaf ECG Plaster.
13. **Winner of the 47th DAC/ISSCC Student Design Contest** (2010) by Ph.D student, Liew Wen Sin, for the paper "A 0.8-V 32-fJ/Conversion-Step Dual-Capacitive-Array Successive Approximation Analog-to-Digital Converter". The paper was presented in both IEEE Solid-State Circuits Conference (ISSCC) in Feb 2010 in San Francisco, USA and IEEE 47th Design Automation Conference (DAC) in June 2010 in Anaheim, USA.
14. **2008 Multimedia Communications Best Paper Award** from the IEEE Communications Society, which recognizes outstanding work in the field of Multimedia Communications from any publication in an IEEE Communications Society's journal/magazine or in the proceedings of an IEEE Communications Society sponsored conference/workshop/symposium in the two years preceding the award, for the paper "Joint source-channel-authentication resource allocation and unequal authenticity protection for multimedia

over wireless networks” in the IEEE Transactions on Multimedia, Vol.9, No.4, June 2007, pp.837-850, with Z Li, QB Sun and CW Chen.

15. **1996 IEEE Circuits and Systems Society’s Guillemin-Cauer Award**, which recognizes the best paper published in the IEEE Transactions on Circuits and Systems –Part I or the IEEE Transactions on Circuits and Systems - Part II during the two calendar years preceding the award, for the paper “Frequency-response masking approach for digital filter design: complexity reduction via masking filter factorization” in IEEE Transactions on Circuits and Systems Part 2, Vol.41, No.8, pp.518-525, 1994, with Y.C. Lim.
16. Gold Leaf Award received by Ph.D student, Jinghua Zhang, at 2010 Asia Pacific Conference on Postgraduate Research in Microelectronics & Electronics (PrimeAsia 2010) for the paper “A 1-V 42.6μW 1.5-bit Continuous-Time Delta-Sigma Modulator for Audio Applications”.
17. Silver Leaf Award received by Ph.D student, Lei Wang, at 2010 Asia Pacific Conference on Postgraduate Research in Microelectronics & Electronics (PrimeAsia 2010) for the paper “A 3-5 GHz All-Digital CMOS UWB Pulse Generator”.
18. Gold Leaf Award received by M.Eng student, Muhammad Cassim Mahmud Munshi, at 2009 Asia Pacific Conference on Postgraduate Research in Microelectronics & Electronics(PrimeAsia 2009) for the paper “An Efficient Threshold Setting Algorithm for Digital Ultra Wideband Communication Systems”.
19. Gold Leaf Award received by Ph.D student, Jun Tan, at 2009 Asia Pacific Conference on Postgraduate Research in Microelectronics & Electronics(PrimeAsia 2009) for the paper “A 1-Volt, 2.5-mW, 2.4-GHz Frequency Synthesizer in 0.35μm CMOS Technology”.
20. Best Student Paper Award at 2007 IEEE International Conference on Multimedia & Expo (Beijing, China, 2-5 July 2007) for the paper “Constructing secure content-dependent watermarking scheme using homomorphic encryption,” with Z Li, XL Zhu, and QB Sun.
21. Winner of Top 5 Teams Prize in 48Hacks National Hackathon 2011 with SGD6000 Cash and an AlphaPitch sponsorship in DemoAsia2012 by Research Engineer, David Wong.

Professional Activities:

- Vice Chair of IEEE Fellow Committee (2026)
- Member-at-Large of IEEE Innovation Committee (2026-2027)
- Member of IEEE New Initiatives Committee (2026-2027)
- Chair of IEEE Ad Hoc Committee on Developing AI Driven Multimedia Contents (2026)
- Co-Chair of IEEE Ad Hoc Committee on Enhance TAB Organizational Effectiveness (2026)
- Member of IEEE Canada Awards and Recognitions Committee (2026)
- **IEEE Division I Director** (2024-2025), **Division I Director-Elect** (2023).
- **IEEE Board of Directors** (2024-2025).
- **IEEE Technical Activities Board (TAB) Member** (2024-2025, 2018-2019).
- **Member-at-Large of the IEEE Publication Services and Products Board (PSPB)** (2022-2024).
- **Chair of the IEEE Ad Hoc Committee Accelerating Partnerships with Chinese Publications** (2022-2024).
- **Chair of the IEEE Periodicals Partnership Opportunities Committee** (2019-2024).
- **Member of the IEEE Technical Activities Board Periodicals Committee** (2019-2024).
- **President of the IEEE Circuits and Systems Society** (2018-2019).
- **Member of the IEEE TAB Periodicals Review and Advisory Committee (PRAC)** (2019-2024).
- **PSPB Representative to the IEEE Products and Services Committee** (2021-2022).
- **Member of the IEEE PSPB Strategic Planning Committee** (2024,2022, 2013-2015).

- **Member of the IEEE MGA Strategic Planning Committee** (2023-2024).
- **Member of the IEEE PSPB Publishing Conduct Committee** (2022-2023).
- **Member of the IEEE Fellow Committee** (2023-2024, 2020-2021, 2016-2018).
- **IEEE Board Coordinator to the Fellow Committee** (2024).
- **Member of the IEEE Fellow Advisory and Oversight Subcommittee** (2024).
- **Member of the IEEE Fellow Diversity Oversight Subcommittee** (2023).
- **Member of the IEEE Fellow Strategic Planning Subcommittee** (2022).
- **Member of the IEEE Ad Hoc Committee on Guiding the IEEE Constitutional Amendment** (2022).
- **Chair of the Integrated Circuit Design and Test for Emerging Circuits and Systems Standards Committee**, IEEE Circuits and Systems Society (2023-2025).
- **Chair of the Flexible and Wearable Circuits and Systems Standards Committee**, IEEE Circuits and Systems Society (2022-2024).
- **Chair of the Flexible Electronics Special Interest Group**, IEEE Circuits and Systems Society (2025-2026).
- **Past President of the IEEE Circuits and Systems Society** (2020-2021).
- **President-Elect of the IEEE Circuits and Systems Society** (2016-2017).
- **Member of the IEEE Ad Hoc Committee on Contracting** (2019).
- **Chair of the Awards Committee of IEEE Circuits and Systems Society** (2020-2021).
- **Member of the IEEE Biomedical Engineering Award Committee** (2017-2019).
- **Vice President for Publications of the IEEE Circuits and Systems Society** (2013-2016).
- **Vice President for Asia Pacific Region of the IEEE Circuits and Systems Society** (2007-2008).
- **Chair of Digital Signal Processing Technical Committee**, IEEE Circuits and Systems Society (2010-2012).
- **Member of the IEEE Medal for Innovations in Healthcare Technology Committee**, IEEE Awards Board (2009-2012).
- **Chair of Biomedical Circuits and Systems Technical Committee**, IEEE Circuits and Systems Society (2007-2009).
- **IEEE Circuits and Systems Society's Representative to the BioTechnology Council** (2007-2009).
- **Founder and Founding Chair, Education Chapter, IEEE Singapore Section** (2005-2007).
- **Chair of the IEEE Circuits and Systems Chapter, Singapore Section** (2002-2004, 1997-1999).

Membership of Editorial Boards

- Editorial Boards

2024 –present: Founding Executive Editor-in-Chief, Integrated Circuits and Systems (Published in IEEE Xplore, Listed under the China's Action Plan for Excellence in Science and Technology Journals).

2010 –2013: Editor-in-Chief, IEEE Transactions on Circuits and Systems Part II (Two terms). **I was the first one from Asia in the journal's 63 year history to serve as the EiC of the flagship publication of IEEE CAS Society.**

2024 –present: Chair of Management Committee, IEEE Transactions on Circuits and Systems for AI.

2023 –present: Steering Committee Member, IEEE Transactions on AgriFood Electronics.

2013 –2015: Steering Committee Member, IEEE Transactions on Multimedia.

2007 –2023: Steering Committee Member, IEEE Transactions on Biomedical Circuits and Systems.

2020 –2022: Member, Editorial Board of IEEE Press.

2015 –present: Associate Editor, Science China: Information Sciences.

2013 –present: Associate Editor, Analog Integrated Circuits and Signal Processing.

2011 –2012: Associate Editor, IEEE Technology News.

2008 –2009: Associate Editor, IEEE Transactions on Circuits and Systems Part I.

2007 –2019: Associate Editor, IEEE Transactions on Biomedical Circuits and Systems.

2006 –2007: Associate Editor, IEEE Transactions on Circuits and Systems Part II.

2004 –2005: Associate Editor, IEEE Transactions on Circuits and Systems Part I.

2002 –2003: Associate Editor, IEEE Transactions on Circuits and Systems Part II.

2000 –2009: Associate Editor, Circuits, Systems and Signal Processing.

- Guest Editors

2022 –2023: Guest Editor for IEEE Transactions on Biomedical Circuits and Systems, Special Issue on Flexible Biomedical Sensors for Healthcare Applications.

2021 –2022: Guest Editor for IEEE Open Journal of Circuits and Systems, Special Section on Circuits and Systems for Flexible Electronics.

2014 –2015: Guest Editor for IEEE Transactions on Circuits and Systems I, Special Issue on Selected Papers from ISCAS'2014.

2013 –2014: Guest Editor for IEEE Transactions on Circuits and Systems I, Special Issue on Selected Papers from ISCAS'2013, published in May 2014.

2010 –2011: Guest Editor for the IEEE Transactions on Circuits and Systems I, Special Issue on Selected Papers from ISCAS'2010, published in July 2011.

2010 –2011: Guest Editor for the IEEE Transactions on Biomedical Circuits and Systems, Special Issue on Selected Papers from BSN'2010, published in August 2011.

2007 –2010: Guest Editor for the journal of Circuits Systems and Signal Processing, Special Issue on Low Power Digital Filter Design Techniques and Their Applications, published in Jan 2010.

2007 –2008: Guest Editor for the IEEE Trans. on Biomedical Circuits and Systems, Special Issue on Selected Papers from ISCAS'2007, published in Sept. 2008.

2004 –2005: Guest Editor for the IEEE Trans. on Circuits and Systems Part I: Regular Papers, Special Issue on Biomedical Circuits and Systems: A New Wave of Technology, published in Dec. 2005.

2004 –2006: Guest Editor for the journal of Circuits Systems and Signal Processing, Special Issue on Computationally Efficient Digital Filters: Design Techniques and Applications, published in April 2006.

2002 –2003: Guest Editor of the journal of Circuits Systems and Signal Processing, Special Issue on Frequency Response Masking Technique and Its Applications, published in March 2003.

Membership of international conference committees

2024: General Chair, 2026 IEEE International Symposium on Circuits and Systems (ISCAS2026), May 24-27, 2026, Shanghai, China.

2024: General Co-Chair, 2024 IEEE International Symposium on Circuits and Systems (ISCAS2024), May 19 –22, 2024, Singapore.

2024: General Chair, 2024 IEEE Standards Workshop on Digital Health, May 21, 2024, Singapore.

2024: General Chair, 2024 IEEE International Conference on Biomedical Circuits and Systems (BioCAS 2024), Oct. 24-26, 2024, Xi'an, China.

2024: TPC Co-Chair, 2024 IEEE 17th International Conference on Solid-State and Integrated Circuit Technology (ICSICT2024), Oct. 22-25, 2024, Zhuhai, China.

2023: General Chair, 2023 IEEE International Conference on Biomedical Circuits and Systems (BioCAS 2023), Oct. 19-21, 2023, Toronto, Canada.

2023: Founding Chair, The First IEEE Standards Workshop on AI for Healthcare, Oct. 18, 2023, Niagara Falls, Canada

2023: TPC Chair, 2023 IEEE International Conference on Artificial Intelligence Circuits and Systems (AICAS 2023), June 11-13, 2023, Hangzhou, China.

2023: General Co-Chair, 2023 IEEE 15th International Conference on ASIC (ASICON2023), Oct. 24-27, Nanjing, China

2023: International Advisor, 2023 IEEE International Conference on Integrated Circuits and Systems (ISICAS 2023), Oct.24-25,2023, Jeju, South Korea.

2023: Member of International Advisory Committee, IEEE 5th International Flexible Electronics Technology Conference (IFETC2023), Aug. 14-16, 2023, San Jose, California, USA.

2022: Technical Program Co-Chair, IEEE 16th International Conference on Solid-State and Integrated Circuit Technology (ICSICT2022), Oct. 25-28, 2022, Nanjing, China.

2022: General Co-Chair, 2022 IEEE International Flexible Electronics Technology Conference, Qingdao, China, Sept. 10-14, 2022.

2022: International Liaison, 2022 IEEE International Conference on Biomedical Circuits and Systems (BioCAS 2022), Taipei, Taiwan, Oct. 13-15, 2022.

2021: Advisory Co-Chair, 2022 IEEE International Conference on Artificial Intelligence Circuits and Systems (AICAS 2022), Songdo Convensia, Incheon, Korea, June 13-15, 2022.

2020: General Chair, 2020 IEEE International Symposium on Integrated Circuits and Systems (ISICAS2020), Oct. 29 -30, 2020, Shanghai, China.

2021: Advisory Board Member, 2021 IEEE International Conference on Artificial Intelligence Circuits and Systems (AICAS 2021), June 6-9, 2021, Washington DC, USA.

2020: Technical Program Co-Chair, IEEE 15th International Conference on Solid-State and Integrated Circuit Technology (ICSICT2020), Nov. 3 -6, 2020, Kunming, China.

2019: General Co-Chair, 13th IEEE International Conference on ASIC (ASICON2019), Oct. 29- Nov.1, 2019, Chongqing, China.

2019: Member, International Advisory Committee, IEEE International Conference on Integrated Circuits, Technology and Applications (ICTA), Nov. 13-15, 2019, Chengdu, China.

2018: Technical Program Co-Chair, IEEE 14th International Conference on Solid-State and Integrated Circuit Technology (ICSICT2018), Oct. 31 –Nov. 3, 2018, Qingdao, China.

2018: Member, International Advisory Committee, IEEE International Conference on Integrated Circuits, Technology and Applications (ICTA), Nov. 21-23, 2018, Beijing, China.

2017: Technical Program Chair, 2018 IEEE International Symposium on Circuits and Systems (ISCAS 2018), May 2018, Florence, Italy.

2017: General Co-Chair, 12th IEEE International Conference on ASIC (ASICON2017), Oct. 25-28, 2017, Guiyang, China.

2017: Technical Program Committee Member, the 2017 IEEE Asian Solid-State Circuits Conference (A-SSCC' 2017), Nov. 5-8, 2017, Seoul, South Korea.

2016: General Chair, The First International Workshop on Brain Circuits and Systems, Oct. 20-21, Hangzhou, China.

2016: General Chair, 2016 IEEE Biomedical Circuits and Systems Conference (BioCAS 2016), Oct. 17-19, 2016, Shanghai, China.

2016: Technical Program Committee Member, the 2016 IEEE Asian Solid-State Circuits Conference (A-SSCC' 2016), Nov. 7-9, 2016, Toyama, Japan.

2015: Technical Program Committee Member, the 2015 IEEE Asian Solid-State Circuits Conference (A-SSCC' 2015), Nov. 9-11, 2015, Xia'men, China.

2015: General Co-Chair, 11th International Conference on ASIC (ASICON 2015), Nov. 3-6, 2015, Chengdu, China.

2015: Technical Program Chair, 20th IEEE International Conference on Digital Signal Processing (DSP 2015), July 21-24, 2015, Singapore.

2014: Technical Program Chair, 2014 IEEE Asia Pacific Conference on Circuits and Systems, Nov. 17 –20, Okinawa, Japan.

2014: Technical Program Committee Member, the 2014 IEEE Asian Solid-State Circuits Conference (A-SSCC' 2014), Nov. 10-12, 2014, Kaohsiung, Taiwan.

2014: Technical Committee member, the 12th International Conference on Solid-State and Integrated Circuit Technology (ICSICT'2014), Oct. 28-31, 2014, Guilin, China.

2014: International Liaison, 2014 IEEE Biomedical Circuits and Systems Conference (BioCAS'2014), Lausanne, Switzerland, Oct. 22-24, 2014.

2013: Steering Committee member, 2013 IEEE Life Science Grand Challenges Conference, Dec. 7-9, 2013, Singapore.

2013: Technical Program Committee Member, the IEEE Asian Solid-State Circuits Conference (A-SSCC'2013), Nov. 11-13, 2013, Singapore.

2013: Technical Program Committee Member, 2013 IEEE Biomedical Circuits and Systems Society (BioCAS' 2013), Oct. 31- Nov. 2, 2013, Rotterdam, the Netherlands.

2013: Technical Program Committee Member, the 10th International Conference on ASIC (ASICON'2013), Oct.28-31, 2013, Shenzhen, China.

2012: General Chair, 19th Asia and South Pacific Design Automation Conference(ASP-DAC2014), Jan. 20-23, 2014, Singapore.

2012: Technical Program Committee Member, the 39th European Solid-State Circuits Conference ESSCIRC' 2013, September 16-20, 2013, Bucharest, Romania.

2012: International Advisory Committee Co-Chair, 2013 IEEE MTT-S International Microwave Workshop Series on RF and Wireless Technologies for Biomedical and Healthcare Applications, Aug 1-3, 2013, Singapore.

2012: Technical Program Chair, 2013 IEEE Symposium on Circuits and Systems(ISCAS'2013), May 2013, Beijing, China.

2012: Track Chair, 2012 IEEE International Conference on Electronics, Circuits, and Systems (ICECS2012), Dec 9-12, 2012, Seville, Spain.

2012: International Liaison, 2012 IEEE Biomedical Circuits and Systems Conference, Nov 28-30, 2012, Hsinchu, Taiwan.

2012: General Chair, 2012 International Conference on BioElectronics, BioSensors, BioMedical Devices, BioMEMS/NEMS and Applications(Bio4Apps'2012), Nov. 19-20, 2012, Singapore.

2011: Technical Program Committee Member, the 38th European Solid-State Circuits Conference ESSCIRC' 2012, September 17-21, 2012, Bordeaux, France.

2010: Special Session Chair, 2012 IEEE Symposium on Circuits and Systems (ISCAS'2012), May 2012, Korea.

2010: Technical Program Committee Member, the 9th International Conference on ASIC (ASICON 2011), October 25-28, 2011, Xiamen, China.

2010: Technical Program Committee Member, the 37th European Solid-State Circuits Conference ESSCIRC' 2011, September 12-16, 2011, Helsinki, Finland.

2010: Technical Program Committee Member, the 20th European Conference on Circuit Theory and Design (ECCTD 2011), August 29 –31, 2011, Linköping, Sweden.

2010: DSP Track Chair and TPC Member, 2011 IEEE Symposium on Circuits and Systems (ISCAS'2011), May 15-18, 2011, Rio De Janeiro, Brazil.

2009: Founder and Technical Program Chair, 2010 International Conference on Green Circuits and Systems (ICGCS2010), June 2010, Shanghai, China.

2009: General Chair, 2010 Asia Pacific Conference on Postgraduate Research in Microelectronics & Electronics (PrimeAsia'2010), September 22-14, 2010, Shanghai, China.

2009: Technical Program Committee Member, 2010 International Conference on Solid-State and Integrated Circuit Technology (ICSICT2010), Nov. 2010, Shanghai, China.

2009: International Advisory Committee Member, 2010 IEEE International Conference on Ultra-Wideband (ICUWB' 2010), September 20-23, 2010, Nanjing, China.

2009: Technical Program Committee Member, the 36th European Solid-State Circuits Conference ESSCIRC' 2010, September 13-18, 2010, Seville, Spain.

2009: Plenary Session Chair, International Conference on Body Sensor Networks (BSN'2010), June, 2010, Singapore.

2009: DSP Track Chair and TPC member, 2010 IEEE Symposium on Circuits and Systems (ISCAS'2010), May 2010, Paris, France.

2009: Biomedical Circuits and Systems Track Review Committee Member, 2010 IEEE Symposium on Circuits and Systems (ISCAS'2010), May 2010, Paris, France.

2008: Member of International Organizing Committee, The 4th International Symposium on Biomedical Engineering (ISBME'2009), December 14 -18, 2009, Bangkok, Thailand.

2008: General Co-Chair, 2009 IEEE Biomedical Circuits and Systems Conference (BioCAS'2009), November 26-28, 2009, Beijing, China.

2008: Founder and General Chair, 2009 Asia Pacific Conference on Postgraduate Research in Microelectronics & Electronics (PrimeAsia'2009), November 19-21, 2009, Shanghai, China.

2008: Technical Program Committee Member, IEEE 8th International Conference on ASIC (ASICON'2009), October 20-23, Changsha, China.

2008: Track Chair, 2009 European Conference on Circuit Theory and Design (ECCTD'2009), August 23 –27, 2009, Antalya, Turkey.

2008: International Coordinator, 2009 IEEE International Symposium on Circuits and Systems (ISCAS'2009), May 24-27, 2009, Taiwan.

2008: DSP Track Chair and TPC member, IEEE 2009 International Symposium on Circuits and Systems (ISCAS' 2009), May 24-27, 2009, Taiwan.

2008: Biomedical Circuits and Systems Track Chair, 2009 IEEE International Symposium on Circuits and Systems (ISCAS'2009), May 24-27, 2009, Taiwan.

2007: Technical Program Co-Chair, 2008 IEEE Biomedical Circuits and Systems Conference (BioCAS'2008), November 18-21, 2008, Baltimore, USA.

2007: Technical Program Committee Member, 9th International Conference on Solid-State and Integrated-Circuit Technology (ICSICT'2008), October 20-23, 2008, Beijing, China.

2007: International Program Committee Member, 2008 IASTED Signal and Image Processing (SIP'2008), August 18 –20, 2008, Hawaii, USA.

2007: International Advisory Committee Co-Chair, 2008 IEEE International Conference on Neural Networks and Signal Processing (ICNNSP08), June 3 –7, 2008, Nanjing, China.

2007: International Coordinator, 2008 IEEE International Symposium on Circuits and Systems (ISCAS'2008), May 18 –21, 2008, Seattle, USA.

2007: Biomedical Circuits and Systems Track Chair and TPC member, 2008 IEEE International Symposium on Circuits and Systems (ISCAS'2008), May 18 –21, 2008, Seattle, USA.

2007: DSP Track Co-Chair, 2008 IEEE International Symposium on Circuits and Systems (ISCAS'2008), May 18 –21, 2008, Seattle, USA.

2007: International Advisory Committee Member, The International Conference on Computer and Communication Engineering (ICCCE'2008), May 13 –15, 2008, Kuala Lumpur, Malaysia.

2006: Technical Program Committee Member, 7th International Conference on ASIC (ASICON'2007), October 22-25, 2007, Guilin, China.

2006: Review Committee Member, BioCAS and DSP Tracks, 2007 IEEE International Symposium on Circuits and Systems (ISCAS'2007), May 27 –30, 2007, New Orleans, USA.

2006: Technical Program Committee Member, 2007 IEEE International Workshop on Radio-Frequency Integration Technology (RFIT'2007), December 9 -11, 2007, Singapore.

2006: Tutorial Chair, 2007 IEEE Biomedical Circuits and Systems Conference (BioCAS'2007), November 27 –30, 2007, Montreal, Canada.

2006: International Program Committee Member, 2007 IASTED Signal and Image Processing (SIP'2007), August 20 –22, 2007, Hawaii, USA.

2005: Technical Program Co-Chair, 2006 IEEE Asia Pacific Conference on Circuits and Systems (APCCAS'2006), December 4 –7, 2006, Singapore.

2005: Technical Program Co-Chair, 2006 IEEE Biomedical Circuits and Systems Conference (BioCAS'2006), November 29 –December 1, 2006, London, UK.

2005: International Program Committee Member, 2006 IASTED Signal and Image Processing (SIP'2006), August 14 –16, Hawaii, USA.

2005: International Advisory Committee Member, International Conference on Computer and Communication Engineering (ICCCE'2006), May 9 –11, 2006, Kuala Lumpur, Malaysia.

2005: Technical Program Committee Member, 2005 IEEE International Workshop on Radio-Frequency Integration Technology (RFIT), November 30 –December 2, 2005, Singapore.

2005: Finance Chair, 2005 IEEE International Conference on FPGA Technology, (FPT'2005), December 11 –14, 2005, Singapore.

2005: Technical Program Committee Member, the 2005 International Conference on ASIC (ASICON'2005), October 24 –27, 2005, Shanghai, China.

2005: International Program Committee Member, 2005 IASTED Signal and Image Processing (SIP'2005), August 15 –17, Hawaii, USA.

2005: Review Committee Member for BioCAS and DSP Tracks, 2006 IEEE International Symposium on Circuits and Systems (ISCAS'2006), May 21-24, 2006, Greece.

2004: Technical Committee Member, 2005 International Workshop on VLSI Design and Video Technology (IWVDVT'2005), May 28 –31, 2005, Suzhou, China.

2004: General Chair and Founding Member, The First IEEE International Workshop on Biomedical Circuits and Systems (BioCAS'2004), December 1 –3, 2004, Singapore.

2004: Technical Program Committee Member, 2004 IEEE Asia Pacific Conference on Circuits and Systems (APCCAS'2004), December 6 –9, Tainan, Taiwan.

2004: International Program Committee Member, 2004 IASTED Signal and Image Processing (SIP'2004), August 23 –25, 2004, Hawaii, USA.

2004: Review Committee Member, BioCAS and DSP Tracks, 2005 IEEE International Symposium on Circuits and Systems, May 23-26, 2005, Kobe, Japan.

2003: Technical Program Committee Member, The 2003 International Conference on ASIC (ASICON'2003), October 21 –24, 2003, Beijing, China.

2003: Review Committee Member, BioCAS and DSP Tracks, 2004 IEEE International Symposium on Circuits and Systems, May 23-26, 2004, Vancouver, Canada.

2002: Technical Program Committee Member, 2002 IEEE Asia Pacific Conference on Circuits and Systems (APCCAS'2002), December 16 –18, 2002, Singapore.

2001: Technical Program Committee Member, The Third IEEE International Workshop on Networked Applications, March 1 –2, 2001, Singapore.

Research

Research Interests

Energy efficient circuits and systems, especially on low voltage circuit techniques and low power signal processing systems. The research covers following topics:

- Energy efficient embedded AI for healthcare applications.
- Event-driven system architecture for ultra-low power AIoT sensors.
- Low power circuits for flexible electronics and miniaturized devices.
- Self-powered wireless sensors for IoT, healthcare applications, green building, environmental sensing, and power grid.
- Energy efficient signal processing platform for low voltage and low power circuits and systems, especially in event-driven/asynchronous signal processing techniques.
- Body channel communications for wearable sensors.

Research Grants

Dr. Lian's research has attracted more than \$28 million research funds from various sources. The largest grant is SG\$10M (~\$10M) from National Research Foundation of Singapore under Competitive Research Program.

Publications (Refer to Publication List in Appendix for details)

Published a book, 4 book chapters, more than 350 papers in peer reviewed international journals and international conferences. Details are available at Google Scholar: <https://scholar.google.com/citations?user=s7dD>

Graduate Supervisions

45 M.Eng (Research based with thesis), 38 Ph.D.

Invited Keynotes and Technical Talks

1. Bridging Semiconductor Ecosystems: China, Singapore, and Strategic Partnership with Europe, Keynote Speech, the 11th Joint EUROSIOI Workshop and International Conference on Ultimate Integration on Silicon (EUROSIOI-ULIS 2025), CEZAMAT, Warsaw, Poland, May 12-13, 2025.
2. Event-Driven System Architecture for Ultra Lower Power AIoT Chips, KU Leuven, January 14, 2025, Leuven, Belgium.
3. Event-driven system architecture for Ultra-low Power AIoT chips, Tsinghua University, June 4, 2024, Shenzhen, China

4. Event-Driven System Architecture for Ultra-low Power AIoT chips, University of Science and Technology of China, April 15, 2024.
5. Event-driven system architecture for Ultra-low Power AIoT chips, Keynote Speech, the 2023 Annual ShanghaiTech Symposium on Information Science and Technology (ASSIST 2023), Sept 23-24, 2023, Shanghai, China.
6. Event-Driven System Architecture for Ultra-low Power AIoT chips, Shenzhen University, July 24, 2023.
7. Event-driven system architecture for ultra-low power AIoT chips, Westlake University, June 14, 2023, Hangzhou, China.
8. Event-driven System Architecture for Ultra Low Power AIoT Sensors, Keynote Speech, IEEE Asia Pacific Conference on Circuits and Systems, Nov.11-13, 2022, Shenzhen, China.
9. Event-driven Circuits and Systems for AIoT Sensors in Biomedical Applications, Keynote Speech, IEEE International Workshop for Future Intelligent Circuits and Systems, Aug. 3-5, 2022, Singapore.
10. The Role of Embedded AI Chip in the Era of Intelligent Internet-of-Things, Keynote Speech, IEEE Fellow Forum, May 9, 2019, Suzhou, China.
11. The Role of Embedded AI Chip in the Era of Intelligent Internet-of-Things, Keynote Speech, 2019 China National Intelligent Industries Summit, Jan. 10-11, 2019, Qingdao, China.
12. System-on-Chip in the Era of AI, Keynote Speech, IEEE 14th International Conference on Solid-State and Integrated Circuit Technology, Oct. 31 –Nov. 3, 2018, Qingdao, China.
13. Energy Efficient System Architecture for Devices in Artificial Intelligence-of-Things, Keynote Speech, IEEE Asia-Pacific Conference on Circuits and Systems (APCCAS2018), Oct. 26-29, 2018, Chengdu, China.
14. The Role of Embedded AI Chip in the Era of AI, Keynote Speech, Workshop on AI Chips and Their Applications, Oct. 26, 2018, Nanjing, China.
15. Energy Efficient System Architecture for Edge Devices in IoT, Keynote Speech, The 13th International Conference on Green, Pervasive and Cloud Computing, May 11-13, 2018, Hangzhou, China.
16. AI and Healthcare, Panellist, 2017 Future Chip, Tsinghua University, Dec. 19, 2017.
17. Steps to Become IEEE Fellow, Tsinghua University, Dec. 12, 2018, Beijing, China.
18. Energy Efficient System Architecture for Sensor SoCs in IoT, Keynote Speech, 2017 IEEE Conference on Intelligent Media Computing, Aug. 3-5, 2017, Wuhan, China.
19. Steps to Become IEEE Fellow, Forum at 2017 IEEE Conference on Intelligent Media Computing, Aug. 3-5, 2017, Wuhan, China.
20. Energy Efficient System Architecture for Wireless Wearable Sensors in Health IoT, Invited Talk, South University of Science and Technology of China, May 16, 2017, Shenzhen, China
21. Energy Efficient System Architecture for Wireless Wearable Biomedical Sensors, Tutorial, 2017 IEEE Custom Integrated Circuits Conference (CICC2017), April 30 –May 3, 2017, Austin, TX, USA
22. Panel on Artificial Intelligence (AI) and System-on-Chip (SoC), Panellist, 2016 IEEE Asian Solid-State Circuits Conference, Nov. 8, 2016, Toyama, Japan.
23. The Future of Wearable Electronics, Keynote Speech, 13th International System-on-Chip Design Conference (ISOC2016), 23-26 Oct. 2016, Jeju, Korea.
24. Panel on Internet of Things, Panellist, 29th IEEE International System-on-Chip Conference (SOCC2016), 6-9 Sep. 2016, Seattle, WA, USA.
25. The Design Challenges for Self-Powered Wireless Wearable ECG Sensor SoC, Tutorial, 29th IEEE International System-on-Chip Conference (SOCC2016), 6-9 Sep. 2016, Seattle, WA, USA.

26. Design Considerations of Self-Powered Wearable Wireless ECG Sensors, Tutorial, 2016 IEEE International Symposium on Circuits and Systems (ISCAS2016), 22-25 May 2016, Montreal, Canada.
27. Self-Powered Wireless Wearable Biomedical Sensors for Personalized Healthcare, Invited Talk, Shenzhen Institutes of Advanced Technology, China Academy of Science, Apr. 28, 2016, Shenzhen, China.
28. Self-Powered Wireless Wearable Biomedical Sensors for Personalized Healthcare, Invited Talk, Chongqing Institute of Green and Intelligent Technology, China Academy of Science, Apr. 19, 2016, Chongqing, China.
29. Self-Powered Wireless Sensors for Internet-of-Things, Keynote Speech, 2016 Asia Workshop on Smart Sensor Systems (AWSSS2016), Mar. 27-29, 2016, Beijing, China.
30. Self-Powered Wearable Biomedical Sensors: Challenges and Future, Invited Talk, Institute of Microelectronics, Feb. 23, 2016, Singapore.
31. Self-Powered Wearable Biomedical Sensors: Challenges and Future, Invited Talk, Xi'an Jiao Tong University, Jan. 15, 2016, Xi'an, China.
32. Challenges in the Design of Wireless Wearable ECG Sensors, Tutorial, 2015 IEEE International Conference on Biomedical Circuits and Systems (BioCAS2015), Oct. 22-24, 2015, Atlanta, Georgia, USA.
33. Wearable Wireless Biomedical Sensors: Challenges and Future, Keynote Speech, 2015 Symposium on Engineering, Medicine and Biology Applications (SEMBA'2015), Jan. 30 –Feb. 1, 2015, Kaohsiung, Taiwan.
34. Self-Powered Wearable Wireless Biomedical Sensors: Challenges and Future, Invited Talk, Oct. 2, 2014, Ryerson University, Toronto, ON, Canada.
35. Ultra Low Power SoC for Self-Powered Wearable ECG Sensor, Forum Talk, 2014 IEEE Custom Integrated Circuits Conference (CICC'2014), Sept. 15-17, 2014, DoubleTree Hotel, San Jose, CA, USA.
36. Self-Powered Wireless Biomedical Sensors: Challenges and Future, Plenary Speech, 2013 International Symposium on Wearable Health Care Sensors, Oct 25, 2013, Yokohama, Japan.
37. Self-Powered Wireless Biomedical Sensors: Challenges and Future, Invited Talk, Shanghai Jiao Tong University, July 22, 2013, Shanghai, China.
38. Self-Powered Wireless Biomedical Sensors: Challenges and Future, Keynote Speech, 2012 International Conference on BioElectronics, BioSensors, BioMedical Devices, BioMEMS/NEMS and Applications (Bio4Apps'2012), Nov 19-20, 2012, Singapore.
39. Wireless Biomedical Devices for Neural Engineering, Invited Talk, IEEE Summer Camp, Shanghai Jiao-Tong University, July 6, 2012.
40. Self-Powered Wireless Biomedical Device for Future Healthcare, Plenary Speech in Medical Deep Dive Workshop organized by Maxim Integrated Products, Dallas, USA, May 15, 2012.
41. Google, iPhone, What Comes Next?, Invited Talk, Med-X Research Institute and School of Microelectronics of Shanghai Jiao Tong University, Shanghai, Dec. 29, 2011.
42. Google, iPhone, What Comes Next?, Invited Talk, Universite du Quebec a Montreal, Canada, Dec. 21, 2011.
43. Google, iPhone, What Comes Next?, Invited Talk, The University of British Columbia, Vancouver, Canada, Dec. 8, 2011.
44. SoC for Biomedical Applications: Trends and Challenges, Panel Talk, 19th IFIP/IEEE International Conference on Very Large Scale Integration, Hong Kong, China, Oct 3-5, 2011. (an event for celebrating 30-year anniversary of the conference).
45. Google, iPhone, What Comes Next?, Inaugural Lecture of the NUS Engineering Lecture Series, Faculty of Engineering, NUS, Sept. 22, 2011.

46. Towards Self-Powered Wireless Biomedical Devices, Invited Talk, Concordia University, Montreal, Canada, June 6, 2011.
47. The Design of Sub-mW Wireless Implantable EEG Device, Keynote Speech, *IEEE CAS-FEST Workshop on Brain-Machine/Brain-Computer Interfaces*, Rio de Janeiro, Brazil, May 15, 2011.
48. Expanding the Frontiers of Biomedical Circuits & Systems, Inaugural Professorial Lecture, NUS, Mar. 8, 2011.
49. Towards Self-Powered Wireless Biomedical Devices, Invited Talk, Shanghai Jiao Tong University, Shanghai, China, Dec. 27, 2010.
50. Towards Self-Powered Wireless Biomedical Devices, Invited Talk, University of Toronto, Toronto, Canada, Dec. 20, 2010.
51. Towards Self-Powered Wireless Biomedical Devices, Invited Talk, The University of British Columbia, Vancouver, Canada, Dec. 14, 2010.
52. The Design of ECG-on-Chip, Invited Talk, Simon Fraser University, Vancouver, Canada, Dec. 3, 2010.
53. Towards Self-Powered Biomedical Devices, Keynote Speech, *The 28th Norchip Conference(Norchip 2010)*, Tampere, Finland, 15-16 Nov. 2010.
54. Towards Sub-mW Wireless Implantable EEG Sensors, Panel Talk, The 3rd International Forum on Systems and Mechatronics, Singapore, 6-9 Sept. 2010.
55. An ECG-on-Chip for Wearable Cardiac Monitoring Devices, Invited Talk, 5th IEEE International Symposium on Electronic Design, Test & Applications, Ho Chi Min city, Vietnam, 13-15 Jan. 2010.
56. Towards Self-Powered Wireless Biomedical Devices, Invited Talk, 9th International Conference on Solid-State and Integrated-Circuit Technology, Beijing, China, 20 –23 Oct. 2008
57. Towards Self-Powered Wireless Biomedical Devices, Plenary Speech, Symposium on Low Power Biomedical System-on-Chip Design and Application, IC China 2008, Suzhou International Expo Center, Suzhou, China, 19 Sept 2008.
58. Wireless Biomedical Sensors for Body Area Network, Invited Talk, Tsinghua University, Beijing, 18 December 2007.
59. An IEEE Circuits and Systems Society Distinguished Lecturer talk, The Wireless Biomedical Sensor, University of Oslo, Norway, June 2005.
60. An IEEE Circuits and Systems Society Distinguished Lecturer talk, The Development of Wireless Biomedical Sensor, Linköping University, Sweden, June 2005.
61. An IEEE Circuits and Systems Society Distinguished Lecturer talk, The Wireless Biomedical Sensor, Tampere University of Technology, Finland, June 2005.
62. An IEEE Circuits and Systems Society Distinguished Lecturer talk, The VLSI Implementation of High-Speed Low Power Digital Filters, Tsing Hua University, Beijing, 2 Sept. 2004.
63. Two IEEE Circuits and Systems Society Distinguished Lecturer talks, (1) The VLSI implementation of high-speed low-power digital filters, (2) The design of high-speed low-power digital FIR filters based on frequency-response masking technique, Shanghai Jiao Tong University, Shanghai, 1-2 July 2004.
64. Low Power Digital Filter Designs, Invited Talk, Tsinghua University, Nov. 2002.
65. Filter Implementation Session, Invited Talk, The 2001 International Conference on ASIC, Shanghai, China.
66. Frequency-response Masking Technique, Invited Talk, Shanghai JiaoTong University, Nov. 2000.

Teaching

Modules Taught

14 undergraduate courses and 4 postgraduate courses

Teaching Awards

University level

- 2009/2010 National University of Singapore Annual Teaching Excellence Award
- 2008/2009 National University of Singapore Annual Teaching Excellence Award

Faculty level

- 2010/2011 Faculty of Engineering Teaching Commendation List
- 2009/2010 Faculty of Engineering Teaching Honors List
- 2008/2009 Faculty of Engineering Teaching Honors List
- 2007/2008 Faculty of Engineering Teaching Commendation List
- 2006/2007 Faculty of Engineering Teaching Honors List
- 2004/2005 Faculty of Engineering Teaching Commendation List
- 2003/2004 Faculty of Engineering Teaching Commendation List
- 2003/2004 Faculty of Engineering Innovative Teaching Award (Silver)
- 2002/2003 Faculty of Engineering Teaching Commendation List
- 2001/2002 Faculty of Engineering Innovative Teaching Award (Silver)
- 2001/2002 Faculty of Engineering Teaching Honors List

Innovative Methods

- First to introduce adaptive teaching method to the large class.
- Developed an innovative 4-in-1 teaching methodology that enhances the learning in a large class. The 4-in-1 method combine the conceptual learning, just-in-time teaching, experiential learning, and adaptive teaching to address the entry barrier, diverse student backgrounds, and limited knowledge transfer, respectively.
- Develop an Internet based Educator-to-Learner portal, *e-learning Hub*, which supports the innovative 4-in-1 instructional strategy. The *e-learning hub* provides four sets of tools, i.e. visualizations, in-class and after-class feedback systems, intelligent tutorial systems, and virtual simulations/laboratories.
- Developed an Internet based Adaptive Tutoring System, *LearningVista*, which is able to automatically adjust difficult level of assignments according to student's knowledge state.
